*UV: UVA/UVB/UV-C TECHNOLOGY *TDS: TDSAL REDUCES TDS

Long warranty period with best-in-class filtration system.

Copper acts as an anti-fouling agent and enhances the taste of the water making it potable.

Original 'Made-in-USA' Membrane designed to work at high TDS of 2500* PPM.

Keeps the stored water in the tank fresh for longer.

Specially designed filter that adds back the lost minerals to the purified water.

High storage capacity. So you can avail water whenever you need.

More stages mean more robust purification. And our range can purify any kind of contaminated water.

Designed by FABER, Italy. Made in India.

*TDSAL: TDSAL FROM MADE IN INDIA

Also from Faber: Hoods/Chimneys, Built-in Hobs, Built-in Ovens, Dishwashers, Built-in Refrigerators, Cooking Ranges, Built-in Microwave, Cooktops
